Services

# Cyber Insurance...

We provide a fully tailored and comprehensive solution in the ever-evolving world that is cyber insurance.

Data breaches aren't just a big business problem; small and medium-sized businesses with fewer data security resources could be at risk from cyberattack, ransomware attacks, or data breach by hackers, viruses, or errant employees. It's important to remember that SMEs need cyber protection just as large businesses do.

We understand that this is often seen as an unknown quantity and we can help our broker partners fully understand the threats faced by their clients and help bespoke a product to best suit the needs of their individual businesses.

## What do we do?

We can place Irish, UK and international business including but not limited to:

- Primary 1st party and 3rd party coverage
- Stand-alone excess layer policies
- “Introductory” cyber policy products
- Fully bespoke products inclusive of crisis management services
- SME business through to multinational

## Who is it for?

We can assist with the majority of businesses requiring cyber insurance including but not limited to:

- Professional Service Firms including Accountants, Architects & Engineers, Attorneys, Business Process Outsourcing, Consultants, Real Estate, Insurance brokers
- Tech companies
- Construction companies
- Media
- Education
- Healthcare Providers & Vendors
- Public Entities
- Manufacturing & Wholesale
- Retail & Hospitality
- Utilities
